

REGULATING NOSES

Depth noses are essential in ensuring perfect and constant engraving depth. Gravograph offers a wide variety of noses:

steel noses	the most commonly used noses (resistant and highly polished for minimum plate scratching)
teflon noses	for engraving on easily scratched material such as metal
swivel noses	for engraving on curved surfaces (steel or teflon)
prismatic nose	for engraving on jewellery items such ID bracelets or bangles
vacuum noses	same as steel nose + can be linked to swarf extractor
diamond nose	provides better rigidity & accuracy than a non rotative diamond cutter - mainly used for photo engraving (Photostyle) and jewellery

NB: it should be noted that Gravograph noses are compatible with all Gravograph machines

Steel nose
0.7 mm diameter
Part No. 20130

Steel nose
1.5 mm diameter
Part No. 20131

Steel nose
2.4 mm diameter
Part No. 21755

Steel nose
2.5 mm diameter
Part No. 20132

Steel nose
4.6 mm diameter
Part No. 21086

Steel nose
16 mm diameter
Part No. 20960

Steel swivel nose
2.5 mm diameter
Part No. 22464

Teflon swivel nose
3.5 mm diameter
Part No. 22481

Steel swivel nose
5 mm diameter
Part No. 13058

Teflon nose
3 mm diameter
Part No. 20133

Fixed
diamond nose
Part No. 22884

Swivelling
prismatic nose
Part No. 22885

Vacuum nose
1.5 mm diameter
Part No. 21674

Vacuum nose
3.3 mm diameter
Part No. 21672

Vacuum nose
8 mm diameter
Part No. 21673

Teflon long-reach vacuum
noses
2.5 mm diameter
length: 12, 22, 27 mm
No. 28061/28062/28063

*These noses can be made into vacuum noses with adaptor ref. 12720
