## The three groove design in "flat" version

- **Quick and easy** : the new fastening cap simplifies panel assembly. Simply clip to assemble.
- **Creative and stylish** : 4 new finishing profiles : standard finish or triangular, rectangular and round shaped profiles.
- **Tamper-resistant** : the new finishing profile offers more security for wall mounted modules, limiting the risk of having them pulled out.
- **Flexible / interchangeable** : this signage range, composed of flat, aluminium profiles and dovetail strips, is the perfect solution to all your constraints (profiles available in 16/32/48/64/96 and 128mm high).

**Applications** : door plates, "directories", synoptics, totems, orientation, identification directional.

**Installation** : wall-mounted, suspended, flag, free-standing.

## The three groove design in "curved" version

- **Creative and stylish** : a curved line suitable for all dimensions, from door plates to totems.
- **A new modular trestle** : to complete your offer, we created a new design, an innovative trestle for plates up to A4 size.
- **Flexible / interchangeable** : a signage range in which you will find the perfect solution to all your constraints. This range has been extended with a series of new standardized panels for inserting messages in A6/A5/A4 and A3 sizes.

**Applications** : door plates, trestles, "directories", synoptics, totems.  
Orientation, identification, directional.

**Installation** : wall-mounted, suspended, flag, free-standing.

## The three groove design in "large size curved" version

- **User-friendly** : a range of standard sizes or made to measure : you choose, we make it for you.
- **Reliable and robust** : an aluminum structure for multiple profiles.
- **Versatile** : the front and back of the modules can be customized : materials, colours, thickness (max. 3mm) : choose from the wide range of materials available in our catalogue.
- **Aesthetics** : the curved and well proportioned shape allows for optimum text legibility. Inside lighting may easily be inserted in the totem.

**Applications** : totems.

**Installation** : wall-mounted, free-standing, raised on a metal base.
