

Can be run with Windows™ XP, Vista and 7.
Windows® is a registered trademark of Microsoft Corporation.

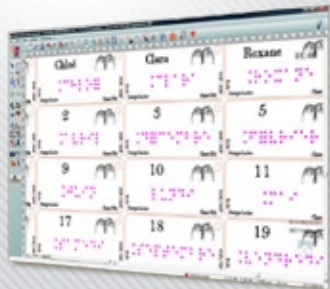

GravoStyle™ 6 is Gravograph's unique software platform for laser and rotary engraving. This new release delivers breakthrough capabilities at both ends of the engraving spectrum. GravoStyle simplifies engraving basics for engraving beginners and pushes back performance limits to explore new design possibilities.

For over 70 years Gravograph has remained the engraving industry's benchmark. As global leader in engraving and marking technology, we utilise our expertise to develop rotary and laser machines, accessories, software, materials, training and technical services. We provide our customers with complete, purpose-built solutions for retail, institutional and industrial applications... from personalisation, to architectural signage, to industrial part marking.

The Unique Platform for Laser & Rotary Engraving Machines

FEATURES AVAILABLE IN ALL LEVELS

- Point & Shoot to check engraving position
- Help features & wizards (step by step guided functions)
- Engraving parameters saved with job
- Automatic text composition mode
- Computip feature to recommend the most efficient tools
- Support for Automatic Plate Feeding applications
- Support for cylindrical engraving
- Customisation of working environment
- Post-it function to make notes while you engrave
- Hot keys
- Favourites toolbar
- Object freezing

GravoStyle™ 6 interacts with the full range of Gravograph technology: rotary, diamond-drag, CO₂, YAG and Fibre laser engravers. Data is exchanged in real time to create synergy in your engraving solution and streamline your workflow.

With GravoStyle™ 6, switching engraving technologies and applications is easy. You work from the same software platform whether you are engraving with a laser or mechanical machine. Just one investment, just one learning curve.

Gravograph marking solutions offer exceptional quality and durability, exceeding industry product performance standards. Our global quality management charter ensures that both products and services are continually improved, and that all of our team members provide you with the best possible customer experience.

GravoStyle™ 6 thinks for you. Its interactive wizards put all of Gravograph's engraving know-how at your fingertips. They illustrate every step of job creation with 2D models so that what you see is what you really engrave. Manual data entry is minimised to eliminate the risk of operator error wherever possible.

Our success is built on three fundamental values: our customer-focus, ongoing innovation and industry-leading customer service from over 800 employees worldwide.

Visit www.gravograph.co.uk for more information.

GravoStyle™ 6 is designed to evolve with your business, with four levels and multiple options to improve your engraving productivity and creativity.

Gravograph machines and accessories offer power and depth for 3D engraving applications. We recommend Type3 software to complete your 3D engraving solution.

Type3, the unique artistic CAD/CAM software solution for 3D engraving.
